

SOLAR STALICO TOWER

The latest generation of STALICO mobile camera mast is available with 3 integrated solar panels. An ingenious folding system guarantees optimal absorption of solar energy.

In combination with one of our battery systems, this ensures an astonishing autonomy.

One of the most climate-saving developments for small consumption.

SPECIFICATIONS

- Camera mast 6.5m
- Open frame for 3 solar panels
- Weight: 485kg (empty)
- Weight 750kg (with batteries and E-cabinet)
- Weight 780kg (with batteries, E-cabinet, fuel cell and cartridge)
- Dimensions closed: w.120 x l.120 x h.253
- Dimensions open space: w.200 x l.200 x h.650
